

ULTRA SOFT

FEATURES

ULTRASOFT is a concentrated liquid softener for use in professional laundries with washer-extractors or continuous washers.

ULTRASOFT contains a selection of essences held in microcapsules that are activated by wearing or rubbing the fabrics, even weeks after washing, releasing a fresh and pleasant scented note.

The use of "touch release" technology establishes a new olfactory experience, giving washed and dried fabrics (even in the dryer) a pleasant feeling of cleanliness.

Suitable for all types of linen in natural and / or synthetic fiber (with the exception of polyester microfibre), it can be dosed both manually and through automatic dosing systems.

- **Fresh and pleasant long lasting perfume which reactivates itself when you wear or rub the fabrics**
- **Infinite freshness**
- **Great softness**
- **Antistatic action**
- **It does not accumulate – high performance and yield**

METHOD AND DOSAGE OF USE

Use manually or with automatic dosing systems in the last rinse.

The dose may vary according to the conditions and the kind of fabric to be washed

Recommended dose for 1 kg of dry linen: from 2 to 8 gr. of the product.

CHEMICAL COMPOSITION / CHARACTERISTICS

Between 5 e 15 %: Cationic surfactants.

Other components: Perfumes, alpha isomethyl ionone, benzyl alcohol, coumarin, butylphenil methylpropional, eugenol, hexyl cinnamal, 5-chlorine-2-metil -3 (2H) - isothiazolinone, 2 -metil - 3 (2H)- isothiazolinone, dye.

Colour: light blue

Odour: Characteristic scent

Specific weight at 20°C: 0,99+/-

pH as-is at 20 °C: - 4,0+/- 0,5

SAFETY INFORMATION

CLASSIFICATION

The formulation is not dangerous
